INDEX TO VOL. XLVIII

Electrical Review

NEW YORK

JANUARY 6 TO JUNE 30, 1906

INDEX TO VOLUME XLVIII

ELECTRICAL REVIEW

JANUARY 6 TO JUNE 30, 1906

Articles marked * are illustrated; (E) indicates "Editorial"; (P) indicates notes under "Recent Electrical Patents"; (R) indicates "Reviews of Current Engineering Literature."

A

Accelerometer, applications of the..... 155
Accelerometer, a simple*..... 581
Accidents, holiday (E)..... 37
Accidents on the elevated (E)..... 205
Acetylene, a dry process of generating (R) 466
A comparison of English and American practice, by W. E. Sumpner..... 863
Actinium, a new product of (R)..... 692
Actinium, a peculiarity of (R)..... 190
Actress and the live telephone wire, the 582
Adirondack power, by Alton D. Adams. 292
Adulteration of electricity (E)..... 408
Advances in wireless telegraphy..... 723
Advantages of employing electrical nomenclature in steam engineering calculations, the (R)..... 814
Advertising, important movement in.. 86
Advertising show in Madison Square Garden, New York city..... 638
Agent, the electrical (E)..... 39
Agitation for municipal ownership in the United States—its origin, meaning and proper treatment, by Everett W. Burdett..... 996
Alchemist, the modern (E)..... 168
Alcohol calorimeter for coal testing (R) 741
Alcohol from carbide, the production of 641
Allis-Chalmers Company, West Allis plant of the*..... 964
Alloys, electrical properties of (R).... 344
Alloys, the Heusler (E)..... 1
Alpine tunnel, another..... 739
Alternating-current, homopolar dynamo, note on an, by J. E. Noeggerath* 863
Alternating-current machines (P)*.... 273
Alternating-current motor reverser (P)* 153
Alternating-current regulator (P)*.... 23
Alternator, a new (E)..... 707
Alternator, a new, by J. E. Noeggerath*. 796
Alternator, a self-exciting, by E. F. Alexanderson* 297
Alternators, a test of large..... 650
Alternators, heat tests on, by Sebastian Senstius* 915
Alternators, self-excited (E)..... 251
Aluminum fuses (R)..... 155
Amalgamation of Ohio and Indiana Interurban Railway Association..... 152
American Association for the Advancement of Science..... 9
American Falls Power, Light and Water Company, Limited, the Idaho Consolidated Power Company and the American Falls Power Company*.. 830
American Institute of Electrical Engineers 110
152, 188, 327, 412, 483, 604, 675, 715, 783
American Institute of Electrical Engineers' building fund..... 88
American Institute of Electrical Engineers, social features of the convention of the*..... 906
American machinery in foreign countries 561
American Society of Mechanical Engineers, some impending changes in the 582
American Street and Interurban Railway Association 820
American Telephone and Telegraph Company, annual report of the directors of the..... 493
Ameri-Teleost fish Astroscopus, a new type of electric organ in an (R).. 538
Anaconda, recent improvements at (R) 503
Analogies (E)..... 360
Anderson, S. C., single-phase railway equipment for..... 859
Animas Power and Water Company, the hydroelectric plant of the, by Malcolm Lloyd*..... 610
Annual election of officers of the American Telephone and Telegraph Company 520
Annual meeting of the American Institute of Electrical Engineers....715, 783
Annual meeting of the Municipal League of Indiana..... 715
Annual meeting of the New York Electrical Society 992
Annual report of the General Electric Company 734
Anti-lubricant throwing device (P)*.. 1043
Apparatus for measuring electrical resistance (P)* 343
Arc lamp of high candle-power employing radiating bodies or conductors of the second class, a new form of (R)..... 868
Arc lamps, long-flame, by Leonard Andrews* 923
Arc, researches with the electric (R).. 154
Arizona copper merger..... 318
Athens tramways, electricity for..... 217
Atmospheric electrical potential, measurements of (R)..... 932
Atomic disintegration (R)..... 430
Atomic theory, the (E)..... 323
Atoms of ordinary matter be broken up, can the? (E)..... 39
Australian telephone and telegraph service 655
Automatic appliances (E)..... 479
Automatic Electric Company, the..... 195
Automatic speed-increasing device (P)* 864
Automatic telephone system (P)*..... 1044
Automobile shows, New York..... 111
Automobile, the electric (E)..... 131
Auxiliary pole, the (E)..... 93
Auxiliary pole, the reappearance of the (E) 38
Auxiliary reversing poles for large continuous-current dynamos, by H. M. Hobart* 104

B

Balancers, by Budd Frankenfield*..... 362
Barmbeck central station equipment at Hamburg, new.*..... 258
Belgium, rubber importations from.... 188
Belgium, wire trust in..... 489
Bellegarde, France, the hydroelectric equipment of (R)..... 502
Bell Telephone Company, of Philadelphia 299
Benjamin Franklin statue unveiled in Paris 691
Berkeley, novel suggestion from..... 865
Berlin, Germany, city ownership in.... 171
Berthoud-Thoune, Switzerland, three-phase electric road, by C. L. Durand* 677
Better lighting, for (E)..... 949
Bicentenary, the Franklin..... 676
Bill to regulate the awarding of contracts for the construction of state, county or municipal buildings.... 195
Blastfurnace gases, the utilization of (E) 3
Blowpipe, the oxyacetylene (E)..... 3
Boiler tubes, the preservation of (R).. 620
Bolometer as a detector of electric waves, the use of the (R)..... 467
Book Reviews.
Alternating Currents—Their Theory, Generation and Transformation. Hay..... 384
A Practical Treatise on the Steam Engine Indicator and Indicator Diagrams. Beaumont 384
A Treatise on Producer Gas and Gas Producers. Wyer..... 649
Care and Management of Electric Power Plants. Schneider..... 560
Cours de Physique de l'Ecole Polytechnique. Bouty..... 649
Electricity Meters. Solomon..... 649
Electric Power Transmission. Bell 560
Electric-Railway Accounting. Brockway 649
Electric Transmission of Water Power. Adams..... 772
Electric Wiring Diagrams and Switchboards. Harrison..... 851
Eminent Engineers. Goddard..... 725
Engineering Mathematics Simply Explained. Harrison..... 560
Experimental Electrochemistry. Hopkins 560
Gas, Gasoline and Oil Engines, including Producer-Gas Plants. Hiscox 229
Gasoline-Engine Ignition. Williams 772
High-Tension Power Transmission. 772
La Theorie Moderne des Phenomenes Physiques. Righi..... 23
Les Accumulateurs et les Piles Electriques. Montpellier 384
Les Procédes de Commande à Distance au Moyen de L'Electricité. Frilley 560
Les Quantités Elémentaires d'Electricité—Ions, Electrons, Corpuscules. Abraham and Langevin.. 185
Management of Accumulators. Salomons 649
Mechanical Engineering. Sames.. 98

BOOK REVIEWS—*Continued.*
Modern Locomotive Engineering. Swingle 98
Modern Turbine Practice and Water-Power Plants. Thurso... 98
Motive Power and Gearing for Electrical Machinery. Carter..... 384
Physical Chemistry for Electrical Engineers. Morgan..... 560
Physics. Mann and Twiss..... 229
Practical Electric-Railway Handbook. Herrick..... 649
Projektierung Elektrischer Licht und Kraftübertragungsanlagen. Stierstorfer 649
Report of the Electric Railway Test Commission to the President of the Louisiana Purchase Exposition 995
Shaft Governors. Trinks and Housum 772
Standard Telephone Wiring. Fairman 649
Synchronous and Other Multiple Telegraphs. Crehore..... 229
Tables des Intérêts Composés Annuités et Amortissements. Arnaudeau 384
Telegraphy. Herbert..... 23
The Electrical Nature of Matter and Radioactivity. Jones..... 807
The Production of Aluminum and Its Industrial Use. Minet..... 229
The Seven Follies of Science. Phin 772
The Theory, Calculation and Construction of Steam Turbines. Zahikjanz 772
The Wiring Handbook. Poole..... 649
Whittaker's Electrical Engineer's Pocket Book. Edgcumbe..... 384
Boston automobile show, the..... 456
Boston branch of the Illuminating Engineering Society..... 436
Britain, electrical progress in, by W. A. Chater* 64
British Board of Trade's electrical standards laboratory (R)..... 1013
British India, Jhelum river hydroelectric power installation in*..... 16
Brooklynite on Mount Vesuvius, a..... 618
Brush contact resistance (R)..... 154
Buenos Aires electric tramways, by Dr. Alfred Gradenwitz*..... 145

C

Cables, standardizing electric (E)..... 673
Cadmium cell, the (E)..... 709
Calculation of dynamos (R)..... 238
Calibrating watt-hour meters, system of (P)* 343
Cambuslang electricity and destructor works (R)..... 154
Canada, control of telephones in..... 653
Canada, electrical extension in..... 109
Canada, lead production of..... 562
Canadian electrical notes..... 682
Canadian electric railways..... 421
Canadian report on the electro-smelting of iron ores (E)..... 989
Canadian Society of Civil Engineers entertained by Ontario Power Company 213
Canals, electricity for..... 684
Carbide furnace, a new*..... 464
Carbon battery, a (R)..... 564
Care and maintenance of equipment, by R. A. Walker..... 579
Cement-covered wood poles..... 265
Census of manufactures, 1905..... 698
Central Illinois Construction Company, single-phase equipment for the.... 469
Central station advertising..... 234
Central station economy, effect of a day-load on, the, by J. P. Jones.... 720
Central station heating, calculations and requirements for*..... 452
Central stations, commercial and engineering tendencies affecting, by J. H. Hallberg..... 46
Central power plant of the estate of Henry W. Oliver, Pittsburg, Pa., the* 1038
Cheltenham (Md.) magnetic observatory registration of the effects from electric cars over twelve miles distant (R) 776
Chemical problems in electrical engineering (E)..... 409
Chemistry in engineering (E)..... 252
Chemistry in engineering, by Chas. E. Farrington 421
Chesapeake & Potomac Telephone Company, the..... 388
Chicago drainage canal, the..... 378
Chicago electrical show, the.....7, 88, 111
Chicago electrical show, the General Electric Company at the*..... 185
Chicago, Telephone Company, the..... 181
Chicago Telephone Company, a statement from the..... 520
Chicago telephone rates..... 216
Chicago, the electrical city (E)..... 130
Chicago, the Electrical Trades Association of..... 111
Chicago to be connected with long-distance independent telephone system 371
Churches, notes on the lighting of, by Edwin R. Weeks 963
Cincinnati fall festival, the..... 661
Cincinnati fall festival, the electrical exhibits at the..... 520
Circuit-breakers and fuses, the operation of (R)..... 466
Circuit controller, (P)*..... 153
Circuit-controlling device (P)*..... 23
Circuit for telephone exchange system, transfer (P)*..... 619
City noises (E)..... 95
City ownership in Berlin, Germany.... 171
Civil service examination for state and county service in New York..... 483
Civil service examinations for assistant electrical engineer and electrical assistant 528
Clearing-house started, independent telephone 178
Coal and iron, production and consumption of..... 398
Coal-handling plant of the London Metropolitan Electric Supply station, the, by Frank C. Perkins*..... 849
Coal improved by storage in the sea... 730
Coal testing, by John Holliday..... 769
Cobalt for storage batteries, Edison to use 1010
Coke manufacturing, electricity in, by Howard S. Knowlton..... 379
Cold-storage and ice-making plants, the electrical driving of, by Sydney F. Walker..... 261
Colombia, electric plant concessions in. 874
Commutating device (P)*..... 655
Coming power, the, by E. R. Knowles. 1045
Compound alternating-current motors (E) 988
Compound motors (E)..... 203
Concessions in Colombia, electric plant. 874
Concord Electric Company, Sewalls Falls, N. H., hydroelectric installation of the.*..... 149
Conductors, apparatus for laying electric (P)*..... 619
Conduit system of the American Telephone and Telegraph Company, the New York-New Haven (E)..... 553
Conduit system of the American Telephone and Telegraph Company between New York, N. Y., and New Haven, Ct., the long-distance underground* 554
Conduit wiring for electric installations, by L. M. Waterhouse..... 411
Congresses to be held at Milan..... 939
Consumers' meters, the proper handling of, by George A. Barrett..... 218
Convention notes 903
CONVENTIONS.
American Electrical Salesmen's Association 110, 144
American Electrochemical Society. 428, 710
American Institute of Electrical Engineers 651, 794, 835
American Railway Master Mechanics' Association 991
American Society for the Advancement of Science..... 110
American Society of Mechanical Engineers 561
American Street and Interurban Railway Association, the..... 561
American Telephone and Telegraph Company 520
Canadian Electrical Association... 1028
Colorado Electric Light, Power and Railway Association 967
Electrical Contractors' Association of New York..... 990
Illinois Electrical Contractors' Association 992
Independent Telephone Association of Wisconsin 12
Indiana Independent Telephone Association 783
Iowa Electrical Association....300, 691
Iowa Street and Interurban Railway Association 691
Kansas Independent Telephone Association 216
Master Car Builders' Association.. 991
Michigan Independent Telephone Association 496
National Electrical Contractors' Association 783
National Electric Light Association, the.....562, 807, 842, 894, 950
National-Interstate Telephone Association.....464, 794, 847, 1011, 1026
Northwestern Electrical Association 84, 111, 134
Southwestern Gas and Electrical Association 723
Technical Publicity Association officers, election of..... 566
West Virginia Independent Telephone Association..... 387

50588

CONVENTIONS—*Continued.*
West Virginia State Association of Independent Telephone Companies 257
Conversion of disruptive discharges into constant currents, the (R).... 24
Cooperation (E)..... 131
Cooperation in increasing the demand for electrical apparatus and supplies 148
Cooperative Electrical Development Association, the 500
Copper, position and prospects of (R). 1046
Copper, the demand for..... 866
Copper, the direct production of (R)... 933
Copper, the electric metal..... 496
Copper, the increasing demand for (E) 829
Cornell, more room for electrical engineering department at*..... 795
Coronal streamers, magnetic field and (R) 431
Cost of electric railway power and transmission in the state of Indiana (R) 503
Coupling, electric (P)*..... 307
Cranes, electric (E)..... 287
Cranes in German and Irish harbors, electric high-power tower, by Frank C. Perkins* 685
Crocker-Wheeler Company, convention of the branch managers, officers and department heads of the..... 304
Crop, an early spring (E)..... 673
Cuban railway work, new departure in. 1011
Curie, M. Pierre (E)..... 635
Curie, Professor Pierre, killed..... 648
Currents from a magnetic detector of the self-restoring type, on a method of obtaining continuous, by L. H. Walter, M. A.*..... 921
Cuyahoga Telephone Company, the report of the president of the..... 269

D

Dan River Power and Manufacturing Company, Danville, Va., new electrical equipment of the..... 1015
Demand-indicator business in the United States, growth of the, by J. S. Codman*..... 158
Detroit river, the proposed tunnel under the*..... 268
Device for alternating-current distribution, safety (P)*..... 865
Device, self-acting, electrical rope-straining (P)*..... 865
Diesel engine installation at the Traction Terminal Building, Indianapolis, Ind., the*..... 457
Dinner of the Olympic Club, the seventh annual 8
Directed wireless telegraphy (E)..... 793
Directed wireless telegraphy (R)..... 1047
Directed wireless telegraphy, on (R)... 974
Distribution of electricity on board war vessels, the (R)..... 116
Drive in the machine shop, the electrical (E)..... 359
Durham, England, collieries electric-power scheme, the (R)..... 274
Dynamo armatures, eddy-current losses in (E)..... 599
Dynamo-electric machinery, the insulating cost in the manufacture of 388

E

Earthquake at San Francisco, the..... 642
Earthquake, damage to California universities 796
Earthquake in San Francisco, Cal., disastrous 626
Economic considerations in the design and construction of steam turbines (R) 975
Eddy-current losses in dynamo armatures (E)..... 599
Edison medal for the year 1906, the award of the..... 217
Edison on a prospecting tour, snapshots of* 919
Edison system of Southern California, the, by R. H. Ballard..... 993
Effects and causes (E)..... 2
Efficiency of generating stations, increasing the (E)..... 167
Effluviography, or obtaining images by means of obscure effluvia, by D. Tommasi 304
Electrical agent, the (E)..... 39
Electrical apparatus and supplies, co-operation in increasing the demand for 148
Electrical Club, opening of the..... 626
Electrical development in Europe in 1905, by C. L. Durand..... 56
Electrical developments during 1905, phases of 42
Electrical developments in Peru, possible (E)..... 443
Electrical equipment of a machine shop, the 22
Electrical equipment of a two-million-bushel grain elevator*..... 413
Electrical exhibits at the Cincinnati fall festival, the..... 520
Electrical extension in Canada..... 109
Electrical gun (P)*..... 619
Electrical invention, the newest (E)... 791
Electrical irrigation (E)..... 479
Electrical measuring instruments—a comparison of English and American practice, by J. Franklin Stevens 420
Electrical mining notes, by Sydney F. Walker 8, 215
Electrical night at the Coliseum Garden, Chicago 1010
Electrical notes from Europe, by C. L. Durand 235, 374, 416, 559, 728
Electrical power economical for mining (E) 757
Electrical power for textile mills in India..... 967
Electrical pyrometers, the utility of (E) 792
Electrical resonance, a résumé of, by Frank F. Fowle, S. B.*..... 761
ELECTRICAL REVIEW and the *Atlantic Monthly* 959
Electrical show, a souvenir of the..... 171
Electrical signal system (P)*..... 429
Electrical supply houses invading the banking district..... 737
Electrical Trades' Association of Chicago, the annual meeting of the.... 172
Electrical Trades Exposition Company, first annual show of the*..... 138
Electrical Trades Exposition Company, the 349
Electrical undertaking, the Mansfield, England (R)..... 390
Electrical work lessens the fire risk, advance in 638
Electric and gasolene cars, a comparison of (E)..... 1024
Electric cars at the New York automobile shows..... 144
Electric derrick crane, a 100-ton (R).. 814
Electric direct-current service, the field of (R)..... 564
Electric elevators, by E. R. Carichoff*.. 337
Electric energy, variable prices of (E). 444
Electric equipment of the Aberdare collieries, England..... 725
Electric hoisting in a mine (E)..... 600
Electric irons as revenue producers, by S. M. Kennedy*..... 870
Electricity and gas at Newcastle, a study of (R)..... 1012
Electricity and gas *versus* smoke..... 976
Electricity and insurrection, by L. Lodian* 866
Electricity for power purposes (R).... 1046
Electricity in newspaper offices..... 652
Electricity in Sweden..... 59
Electricity, intelligent use of..... 866
Electricity in the home (E)..... 756
Electricity on Erie lines..... 237
Electric lifts for Mount Burgenstock... 728
Electric motor (P)*..... 537
Electric motors for machine driving, common errors in the use of, by W. A. Ker*..... 644
Electric power and wood pulp (E).... 708
Electric-power doors for ships' bulkheads 520
Electric power in Germany..... 155
Electric power in the shoe factory (E). 407
Electric railway development, a phase of (E)..... 2
Electric railway engineering (R)...190, 390
Electric railway engineering preliminaries, by Sydney W. Ashe*..... 843
Electric railway equipment, the New York, New Haven & Hartford single-phase, by B. G. Lamme*.... 460
Electric safety fuse (P)*..... 272
Electric service, possible fields for..... 464
Electric sign (P)*..... 272
Electric signaling (E)..... 987
Electric signs and the load-factor..... 928
Electric smelting of iron and steel.... 794
Electric traction problem, some influences affecting..... 172
Electrification of the London, Brighton & South Coast Railway..... 722
Electrification of the West Jersey & Seashore division of the Pennsylvania Railroad, progress on the.... 937
Electrochemistry and electrometallurgy in 1905, by Charles F. Burgess..... 50
Electrochemistry of chemistry, the (E) 757
Electrolytically produced hypochloride solution, the commercial value of.. 208
Electrolytic iron, magnetic properties of, by C. F. Burgess and A. Hoyt Taylor* 928
Electrolytic meter (P)*..... 115
Electrolytic meters (E)..... 37
Electrolytic meters, two new..... 83
Electrolytic plants, Swiss, by C. L. Durand* 10
Electrolytic tin refining..... 463
Electromagnetic governor (P)*..... 775
Electrometer deflections, an improved method of reading (R)..... 1012

Electrometer for atmospheric electricity, a mechanical registering..... 305
Electrostatic separation of copper ores. 990
Electrotechnical laboratory in London, visiting engineers to attend opening of..... 915
Elevator, electric (P)*..... 775
Emission of negatively charged particles produced by canal rays (R).. 740
End-cell switch (P)*..... 272
Energy, duration, dying out and resistance of oscillating sparks, the (R). 974
Energy, utilizing natural (E)..... 636
Engineering, electric railway (R)..... 190
Engineering honor (E)..... 947
Engineering honor, by Schuyler Skaats Wheeler 968
Engineer, the up-to-date (R)..... 308
Equipment of a direct-current test room for an electricity supply undertaking, the electric (R)..... 238
Equitable rates in relation to rate regulation, by Geo. M'Lean..... 726
Erie Railroad electrification..... 1054
Erie to electrify branches..... 541
European telephone figures..... 1013
Experiments, electricity and tank..... 930
Explosion due to radium..... 388

F

Faraday Society, the.....21, 305, 738, 970
Field of electric direct-current service, the (R)..... 564
Filament lamp, a new (E)..... 325
Fire-alarm system in New York city, for a new 618
Fire-alarm system needed in New York city, new (E)..... 601
Fireproof wire (P)*..... 153
Fluorescent effect due to the secondary rays of radium, an investigation into the..... 342
Flux distribution in armatures (E)... 516
Flux distribution in machines with commutating poles 640
Forced draught for motors (E)..... 130
Franklin anniversary, the (E)..... 93
Franklin bicentenary, the..... 676
French Cable Company's bill..... 505
Fuel investigation, report on the government 427
Furnace, a new carbide*..... 464
Furnace, electric dental (P)*..... 864
Furnaces, potential regulation for large electric (R)..... 693

G

Gas and electricity (E)..... 947
Gas engines as applied to electric driving, by James Atkinson*..... 371
Gas engines for electric lighting, some notes on 651
Gases, the utilization of blast-furnace (E) 3
Gasoline electric car, an interesting*.. 214
Gas-producer plant of a modern gas-engine station, the (R)..... 309
Gas separator for storage batteries (P)* 976
General Advancement Committee of the Electrical Salesmen's Association, report of the..... 782
General Electric Company at the Chicago electrical show, the*..... 185
Generating stations, increasing the efficiency of (E)..... 167
Generators, parallel running of alternate-current* 920
Generators, the design of electric (R). 868
George H. Daniels, a testimonial dinner to 336
German electrical industry, the..... 290
Germany, electric power in..... 155
Gift of the International Electrical Congress to the American Institute of Electrical Engineers..... 648
Gifts to the Institute Land and Building Fund, generous (E)..... 93
Glow lamp (P).*..... 115
Grain elevator, electrical equipment of a two-million-bushel*..... 413
Great Britain, electric railway statistics for..... 306

H

Hamburg-American liner, the new..... 820
Hawthorne shops of the Western Electric Company, by H. R. King*..... 808
Heating and cooking, lecture on electrical* 874
Heat tests on alternators, by Sebastian Senstius* 915
Helena Light and Railway Company, reconstruction of the properties of the 580
Hertzian waves, directed (E)..... 204
Heusler alloys, the (E)..... 1
Heusler alloys, a study of the theory of the (R) 24
High-tension, continuous-current railway at Cologne*..... 798
Hippodrome, electric lighting at the New York 226
Hohenfurth plant in Bohemia, by C. L. Durand* 485
Hoisting apparatus, electrical (P)*.... 736
Holiday accidents (E)..... 37
Holland-America liner New Amsterdam, the new 603
Homopolar dynamo, note on an alternating-current, by J. E. Noeggerath* 863
Hotel Belmont, the opening of the..... 730
How the telegraph operator surprised the actor 427
Hurzy system of refloating ships, the (R) 308
Hydroelectric development, a phase of (E) 672
Hydroelectric equipment of Bellegarde, France, the (R)..... 502
Hydroelectric installation of the Concord Electric Company, Sewalls Falls, N. H.*..... 149
Hydroelectric installations of Italy (R) 656
Hydroelectric plant of the Animas Power and Water Company, the, by Malcolm Lloyd* 610
Hydroelectric plant of the city of Drammen, Norway, by Frank Koester* 716
Hydroelectric plants of the United States, Canada and Mexico..... 387
Hydroelectric plants, two interesting Tyrol, by Franz Koester*..... 449
Hydroelectric power commission of the province of Ontario, Canada, report of the..... 681
Hydroelectric station on the Sioule river, France (R)..... 815
Hypochlorite solutions, the commercial value of electrolytically produced.. 208

I

Idle currents, by M. B. Field*..... 605
Illuminating Engineering Society, meeting of the Boston section of the... 643
Illuminating Engineering Society, the. 25
110, 207, 256, 336, 410
520, 758, 862, 960, 1040
Imperial (British) College of Technology, an (R)..... 657
Improving the lamps (E)..... 409
Incandescent electric lamp (P)*..... 389
Incandescent lamps, a portable selenium photometer for (R)..... 692
Incandescent lamps for street lighting, high-efficiency, by Francis W. Willcox* 854
Incandescent street lighting, series (E) 756
Independent telephone clearing-house started 178
Independent telephone franchise sold for $100,000 in San Francisco..... 719
India, new electrical power schemes for 980
Indiana telephone companies organize. 328
Induced-draught fans, advantages of electric motors for driving..... 343
Induction motors, design of (E)..... 515
Induction motors, design of, by R. E. Hellmund* 521
Induction motors, speed regulation of single-phase (R)..... 467
Induction motors, the separation of the losses in 650
Inductive circuit, the conditions for sparking at the break of an..... 458
INDUSTRIAL SECTION.
Adjustable telephone bracket, a new. F.-B. Mfg. Co.*..... 347
Allis-Chalmers installations, some recent. A. C. Co.*..... 242
All-metal lockers and all-steel tool cabinets. E. D. & S. Co., Inc.*.. 194
American Instrument Company, the* 593
American motor-driven shaper. A. T. W. Co.*..... 625
Apparatus, improved condensing. C. H. W. C. Co.*..... 29
Automatic high-speed, high-economy engines. H. F. & M. W.*... 119
Automatic telephones for Skibo Castle. A. E. Co..... 1016
Automatic time switch, an. S. Mfg. Co.*..... 819
"Banner" entrance switch and plug cutout. S. Mfg. Co.*..... 746
Battery, a new electric. C. B. Co.* 28
Battery company secures new plant. R. I. B. Co..... 158
Beck flaming arc lamp. B. F. L. Co.* 1017
Bell automatic motors, the. B. E. Co.* 87
